Welcome

Welcome to the 1st edition of the University of Wales Trinity Saint David’s Referencing Handbooks, created as part of a collaborative effort between the Library and Learning Resources (LLR), the Academic Office and academic staff across the University.

Referencing correctly is an important skill in academia, and there is plenty of conflicting or out-of-date information out there so we’ve created consistent guidance for UWTSD students.

Referencing Handbooks are available for the four standards used at UWTSD and further support and guidance is available via the LLR from your Academic Liaison Librarian.

We would like to thank the academic staff involved for their time and input.

We hope that these will help improve your skills and confidence and hope this resource will be a useful guide through the sometimes confusing world of referencing.

We’d be happy to receive feedback on these guides just contact library@uwtsd.ac.uk with any suggestions.

Introduction

There are four recommended referencing styles in use at the University of Wales Trinity Saint David:

- APA (American Psychological Association)
- Harvard
- IEEE (Institute of Electronics and Electronics Engineers)
- MHRA (Modern Humanities Research Association)

You can find out which referencing standard you should be using by looking in your Programme Handbook. All of the referencing handbooks are available in the Student Guides section of MyDay and at www.uwtsd.ac.uk/library/

What is referencing?

When producing an academic assignment, you will be expected to acknowledge other people’s work by referencing them in a recognised and consistent format. You will also need to provide details of the resources you have read for your assignment. There are a number of reasons why this is necessary:

- Demonstrate the breadth of research you have undertaken
- Add academic credibility to your arguments
- Enable readers to find the sources you have used in your work
- Acknowledge the ideas and work of others
- Avoid accidental plagiarism.

How do I use this handbook?

The handbook will help you recognise the need for accurate referencing and support you in the developing your referencing skills.

The handbook provides examples of how to produce in-text citations and references from some of the most widely used sources you may encounter over the course of your studies.

The handbook is not exhaustive and additional examples and guidance can be found in:

Which you can find in all UWTSD libraries.
Avoiding plagiarism

Proper referencing also means you avoid plagiarism, passing off someone else’s work as your own. Plagiarism can be deliberate or accidental; without accurate referencing it’s possible to accidentally plagiarise someone else’s work.

The University’s full definition of plagiarism can be found within the University regulations: http://www.uwtsd.ac.uk/academic-office/university-regulations-student-guide/

Referencing Tips

- Make sure that you know which referencing style your programme uses before you begin, this will be in your programme handbook
- Keep a record of the sources you read as you go along
- Be consistent in the records you keep and in the way you reference
- Build in enough time to check you referencing
- If in doubt, put yourself in the shoes of the reader and ask if you could easily find the source from your referencing
- If in doubt, seek clarification or ask for help

Referencing Software

The Library provides access to Refworks, an online programme that helps you to record your sources in one place and support you in referencing them and can be access via the library website, using your UWTSD login: http://uwtsd.ac.uk/library/online-library/refworks/

Help and support

During your first year you’ll receive an in-class session on referencing and you’ll be able to access regular workshops and drop-ins throughout the academic year as part of our InfoSkills programme, full details will be available on the Student Events calendar accessible via MyDay http://uwtsd.ac.uk/library/infoskills/. Connect with us @UWTSLib, on Facebook, Twitter and Instagram for updates on top tips.

You have a dedicated Academic Liaison Librarian for your Faculty whose role is to support you throughout your course. You can find out who your Academic Liaison Librarian is and book an appointment here: www.uwtsd.ac.uk/library/contact-us/library-staff/ or by popping into your nearest UWTSD library.

Support for referencing is also available from Student Services and study skills drop-ins are available across the campuses.

Students at Partner Institutions should check with the library at their home institution to find out which standard they should be using and where to get support.
Harvard Referencing: The Basics

The Harvard referencing style consists of:

**In-text citations**

These are used when referring to a source of information within the text of your assignment to show where it came from. They are abbreviated details of the source you are referring to and generally consist of the author’s / editor’s family name, year of publication and, if required, page numbers e.g. *(Pears and Shields, 2016, p. 6)*. You do not need to include the author’s surname in the in-text citation if it is referred to within the body of your work e.g. **According to Pears and Shields (2016, p.6)**. This would just be unnecessary repetition!

**A reference list:**

The purpose of the in-text citation is to refer you to the full details of the publication within a full reference list or bibliography at the end of your work. Full publication details of the citation should be found in the reference list at the end of your assignment. This contains the full bibliographical record of the references cited in your text e.g.

It should enable any reader to locate your original source. A reference list is arranged in alphabetical order by the author’s family name or, if there is no author, by title. A bibliography can also sometimes be requested by your tutor. A bibliography is a list of all the sources you have read for your assignment, whether or not you have cited them in your text and therefore more exhaustive than a reference list. If you’re not sure which is required, ask your lecturer.
How do I quote, paraphrase and summarise in my work?

Quotations
A quotation means that you take the exact wording as used by another author and insert it in your work. Direct quotations should be used sparingly and only when they are relevant to the argument you are making in your work.

Long quotation - more than 30 words or 2 lines

Format:
• enter as a separate paragraph
• indent the paragraph
• quotation marks are not required
• follow with the in-text citation

Example:
Hardy’s development of plot and character must be seen in the broader context of the loss of faith in late Victorian society. As Dunmore comments:

A central tension in Hardy’s fiction is that between fully realized human beings, with all their potential for freedom of choice and action, and the apparently relentless operation of chance, indeed fate, which negates these freedoms. His fiction undoubtedly reflects late Victorian pessimism, an attempt to capture and convey the spirit of individuals before it is swept away by the tides of an indifferent universe (Dunmore, 2017, pp.35-36).

Short quotation - up to 30 words or 2 lines

Format:
• include in the body of the text
• enclose in double quotation marks; “example”
• follow with the author’s surname, year of publication and page number / URL enclosed (in round brackets).

Example:
Hardy’s characters are not simple types. They are “fully realized human beings, with all their potential for individual freedom of choice and action” (Dunmore, 2017, p. 35).
How do I quote, paraphrase and summarise in my work?

Paraphrasing and summarising

Paraphrasing is when you take some-one else’s idea and put it into your own words. Summarising is when you provide a brief overview of some-one else’s idea. You would only need to provide a page number if you are referring to a very specific area or part of the text. You will need to use your judgment as to whether this is necessary. Put yourself in the shoes of the reader: are you referring to a whole work or concept or a very small part of it.

Example:

Dunmore (2017) notes that Hardy presents the reader with rounded characters capable of acting with autonomy, but that these are placed in a context in which their choices are severely constrained by the operation of chance and fate. This she ascribes to the intellectual environment in which he wrote – in particular, the pessimistic spiritual context of late Victorian England.
How do I reference specific types of resources?

1. Books and e-books
Most references to books should adhere to the following general format. Elements may vary slightly. Specific examples are provided.

<table>
<thead>
<tr>
<th>In-text citation: (Author’s surname, year of publication)</th>
<th>Reference list / Bibliography:</th>
</tr>
</thead>
</table>

As print and electronic books are virtually identical, there is no need to indicate whether or not it is electronic unless the electronic version is not an identical version of a print publication.

1.1 Book with two or three authors

1.2 Book with four or more authors

1.3 Chapter within an edited book

1.4 Book without an author or editor
In this case you would use the title rather than the author. When listing in the reference list and/or bibliography you would list it alphabetically but by its title.

## How do I reference specific types of resources?

### 1.7 Book with an organisation as author
In this case, the name of the Organisation is treated as the author.

**In-text citation:**

(organisation for Research into Primary Education, 2017)

**Reference list / Bibliography:**

### 1.8 Multiple works by the same author
Simply label them a and b!

**Different years:**

(McNamara, 2012)

(McNamara, 2017)

**Reference list / Bibliography:**

**Same year:**

(Phelps, 2016a)

(Phelps, 2016b)

**Reference list / Bibliography:**

### 1.9 Editions

According to O’Brien (2016, pp. 15-17) siblings can have a big impact on learning.  

**Reference list / Bibliography:**

**or**

siblings can have a big impact on learning (O’Brien, 2016, pp. 15-17)

**Reference list / Bibliography:**

Barnett’s demonstration of the importance of meeting special needs in the early years (2013, cited in Morton, 2016, p. 17) is interesting.

**Reference list / Bibliography:**

### 1.10 Secondary citation
This is a piece of work that has been referred to in something you have read. Where possible, avoid secondary citations, and access the original work.

**Reference list / Bibliography:**

Note:

If you have not read the primary source, do not include it in your reference list – you may only cite it in your text.
